

## Introducing

# Mike Silver

Singer Songwriter

### *Some treasures lay undiscovered for many years.*

The craft of song writing with such sensitivity is not honed overnight. Mike has over 30 years of experience as a writer, singer, guitarist and live performer, his songs give expression to authentic human emotions without becoming sentimental. The release of Heaven In Mind brings the number of albums to 15!

Mike was one of the first three signings to **Elton John's** Rocket records in 1973. He has toured the USA with the likes of **Dory Previn**, and **Ashford and Simpson** and has worked as a studio musician and backing vocalist with **Charles Aznavour**, **Chris de Burgh**, **Ralph McTell** and **Ray Thomas**.

Even after all these years of travelling, singing and playing Mike is still fascinated by music, to him it is a never ending voyage of discovery; "Being able to play music is like having my birthday every day. The size of the audience is irrelevant, 1000 people, 100 or 10 it's still the same, it's an exchange of emotions: occasionally, there is that frisson that ripples through them in the very few seconds between the end of the song and the beginning of their applause: it's like an earthquake in the heart".

After seeing and hearing Mike perform for the first time one fan, among so many who have written in, said, "I will never forget that evening at Hitchin. I didn't expect to find heaven in The Sun Hotel".

Variously reminiscent of James Taylor, Phil Collins, even Sting, Silver matches the talent of his better known peers, his beautifully restrained delivery is especially noteworthy. Silver produces the goods - something that will come as no surprise to his loyal fans.

Mike's 15<sup>th</sup> release Heaven In Mind, is fantastic! It is essentially an amalgam of Mike's great songs from the past, 'Midnight Train', 'You', the poignant 'Wrong Side of Midnight' and standards including 'Fly me to the moon' and 'Love potion No9' with some brand new songs, like the stunning, 'Breaking the Silence' and the moving 'Who Wants to Be the One', written as only Mike knows how. For anyone else, if songwriters who can really sing and play are your thing, discover Silver with haste.
